Special Education Teacher (K–12, including K–6 Online Program)

Contract: In-building, full-time licensed position | Start Date: July 1, 2026

We are seeking a dedicated and student-centered Special Education Teacher to support learners across grades K–12, including students enrolled in our K–6 online program. This position focuses on providing individualized instruction, ensuring compliance with IEPs, and supporting students in accessing curriculum in both in-person and virtual settings.

Key Responsibilities:

- Develop, implement, and monitor Individualized Education Programs (IEPs)
- Provide direct instruction and intervention tailored to diverse learning needs
- Collaborate with general education teachers, families, and support staff
- Support K–6 online learners through virtual instruction, progress monitoring, and communication with families
- Maintain accurate documentation and ensure compliance with state and federal special education requirements
- Foster an inclusive, supportive learning environment for all students

Qualifications:

- Valid state teaching license with Special Education endorsement
- Experience working with students across a range of abilities and grade levels preferred
- Strong communication, organization, and collaboration skills
- Experience with or willingness to support online/virtual learning environments

Preferred Qualifications:

- Experience supporting students in both in-person and virtual/online learning environments
- Familiarity with a range of service models, including push-in, pull-out, and co-teaching
- Knowledge of behavior intervention strategies and development of Behavior Support Plans (BSPs)
- Experience with progress monitoring tools and data-driven instruction
- Strong collaboration skills with multidisciplinary teams
- Background in supporting students with diverse disabilities across K–12 settings

Additional Information:

- This position serves students across a K–12 setting, including a K–6 online program
- Flexibility and adaptability are essential to meet the needs of students in both physical and virtual classrooms
- Opportunity to work collaboratively in a small, supportive school environment
- Participation in IEP meetings, professional development, and team planning is expected

- May include case management responsibilities and coordination with outside service providers
